EMPLOYMENT

2017 - Present

FAST Enterprises – Implementation Consultant

- I work closely with state government employees to implement FAST's Gentax tax software. As a small team of six we rely heavily on self-reliance and hard work.
- I debug and build solutions for problems that arise in the active and ever-changing environment of tax software.
- I work primarily with Vb.net, MySQL, and Fast's custom front end software.
- Spent several months creating and testing an interest calculator, which allow users to create hypothetical transaction scenarios.

EDUCATION

2013 - 2017

Eastern Washington University

- Accepted into Computer Science Program
- Cumulative GPA of 3.54; Computer Science/Math Course GPA - 3.78

EXPERIENCE

Programming Experience

- Object oriented principles, design patterns, version control
- Primary Tools: Node.js, Vb.Net, MySQL, Java, C
- Less Experience: Python, Linux Command Line, HTML, CSS

Programming Projects

- Alert System Gatherer
 - Automated web-app pulls from WSDOT's API to send traffic alerts, road closures, and more to subscribing users. Node.js, Express, MongoDB.
- Resume Website
 - Resume website I built using Node.js and Express. Check it out here: <https://cameron-massey.herokuapp.com>
- Breakout
 - A remake of the classic breakout game made for android
- Github page: <https://github.com/OutdoorCoder>

LEADERSHIP EXPERIENCE

2015 - 2017

Climbing Wall Supervisor and Teacher

- Used risk management skills to supervise the climbing gym
- Developed teaching skills through small climbing-oriented classes taught once per week
